**Biatain Ag Non-Adhesive**

Superior absorption – for infected wounds with extra fragile skin

- Soft and flexible polyurethane foam dressing with bevelled edges
- Superior absorption – also under compression
- Soft adhesive border provides security
- Superior absorption – for infected wounds with extra fragile skin
- Suitable for use on healthy skin and in areas with need for extra adhesion

**Biatain Ag Adhesive**

Superior absorption – for infected wounds with delayed healing

- Soft non-adherent polyurethane foam dressing with bevelled edges
- Soft and flexible polyurethane foam dressing with bevelled edges
- Soft adhesive border provides security
- Superior absorption – for infected wounds with extra fragile skin
- Suitable for use on healthy skin and in areas with need for extra adhesion

**Biatain Ibu Non-Adhesive**

Superior absorption – for infected wounds that need extra adhesion

- Soft and flexible polyurethane foam dressing with bevelled edges
- Unique 3D foam structure that conforms closely to the wound bed for more effective absorption and continuous release of ibuprofen in the wound
- Suitable for use on healthy skin and creates moist wound healing environment
- Superior absorption – for infected wounds that need extra adhesion

**Biatain Ibu Soft-Hold**

Superior absorption – for painful wounds that are difficult to bandage

- Soft and flexible polyurethane foam dressing with bevelled edges
- Unique 3D foam structure that conforms closely to the wound bed for more effective absorption and continuous release of ibuprofen in the wound
- Suitable for use on healthy skin and creates moist wound healing environment
- Superior absorption – for infected wounds that need extra adhesion

**Biatain Silicone**

Superior absorption – for infected wounds with extra fragile skin

- Soft and flexible polyurethane foam dressing with bevelled edges
- Unique 3D foam structure that conforms closely to the wound bed for more effective absorption and continuous release of ibuprofen in the wound
- Suitable for use on healthy skin and creates moist wound healing environment
- Superior absorption – for infected wounds that need extra adhesion

**An all-in-one wound care portfolio does not exist**
After 35 years in wound care, we at Coloplast believe that absorption is the key to better healing. Our Biatain® portfolio brings superior absorption to daily wound care needs, making Biatain the simple choice for Faster Healing.

**Biatain® Silicone**
Superior absorption – for general purposes

> Unique 3D polymer structure

- **Silicon adhesive** for easy removal with minimal damage or irritation
- **Silicon adhesive** for easy removal with minimal damage or irritation
- **6,7 g/cm²**
- **21.2 vs. main competitors**
- **0.7 g/cm²**
- **67% better absorption**

**Biatain® Soft-Hold**
Superior absorption – for wounds that are difficult to bandage

- **Silicone adhesive** for easy removal with minimal damage or irritation
- **Silicon adhesive** for easy removal with minimal damage or irritation
- **6,7 g/cm²**
- **21.2 vs. main competitors**
- **0.7 g/cm²**
- **67% better absorption**
